PROFILE

Biomedical Engineering undergraduate student seeking an engineering internship in mechanical, biomechanical, or adjacent disciplines, with additional experience in marketing and brand-focused work. I am a highly motivated and adaptive self-starter, with 5+ years of proven experience in retail, marketing, and manufacturing.

EDUCATION

University of Wisconsin-Madison, Wisconsin School of Engineering, Madison, 2023 – 2027

Bachelor of Science, Biomedical Engineering

Certificate in Biology in Engineering

- Specialization: Biomechanics
 - 2-year Recipient of the Fred W. & Josephine Colbeck Scholarship – BME
 - 2 semesters on the Engineering Dean's List, Fall 2023 and Fall 2025
-

PROFESSIONAL EXPERIENCE

Aptyx, Charlotte, NC May - August 2026

R&D Engineering Intern

- Supported development and manufacturing of catheter-based medical devices in an FDA-regulated environment, collaborating with R&D, manufacturing, and quality engineering teams.
- Reviewed and updated 100+ controlled engineering documents through the ECO process, including design, manufacturing, inspection, and risk management documentation.
- Assisted with manufacturing process investigations, root cause analysis, and implementation of engineering improvements to support production and product quality.
- Performed cleanroom manufacturing, device inspection, packaging, and quality verification while ensuring compliance with controlled procedures and quality system requirements.

University of Wisconsin-Madison, Madison, WI

January 2025 - Present

Student Assistant and Procurement Lead

- Mentored first-year engineering students through the design process, providing technical guidance, grading coursework, and facilitating communication with project clients.
- Managed procurement requests and budgets for course projects while training new student assistants on procurement processes and course operations.

Keysight Technologies, Santa Rosa, CA

May 2025 – August 2025

Learn Intern

- Developed 60+ engineering learning assets using AI-assisted workflows, supporting new technical courses and bootcamps for engineers.
- Managed customer-facing web content and contributed to LinkedIn campaigns, producing multiple top-performing posts for the International Year of Quantum.
- Independently managed projects and trained fellow interns on Adobe Experience Manager and Adobe Learning Manager.

Ahlstrom, Kaukauna, WI

May 2023 – August 2025

Seasonal Manufacturing Associate

- Promoted to Summer Storeroom Lead after three days, overseeing inventory management, package processing, asset tracking, and forklift operations.
 - Supported manufacturing operations through safety improvement initiatives, cost analysis in Excel, mill maintenance projects, and collaboration with operations leadership.
-

EXTRACURRICULARS

Kappa Eta Kappa, Electrical Engineering and Computer Science Co-Ed Fraternity January 2025 – Present

- Fall 2025: Member at Large, Assistant Social Chair
 - Coordinated member shift assignments during recruitment events and created digital media supporting chapter publicity and recruitment.
- Spring 2026: Recording Secretary, Social Media Chair
 - Executive board voting member responsible for attendance tracking, chapter records, and recruitment marketing through redesigned social media templates and campaign content.
 - Led construction of the KHK Arcade Engineering Expo project, earning 2nd Place in the ECB Building Competition.
- Fall 2026: Vice President, Social Media Chair
 - Partner with the President to improve executive board structure and streamline organizational decision-making and chapter operations.

Waterboard Warriors Waterski Show Team

January 2014 – August 2024

- Served as team leader and Creative Director, writing and directing the land portion of competitive waterski shows.
 - Helped lead performances that placed 3rd at the Wisconsin State Show Ski Championships and 5th at the National Division 2 Show Ski Championships.
-

SKILLS

Python • Microsoft Excel • Adobe Experience Manager • Adobe Learning Manager • AI-assisted engineering workflows • Engineering Documentation (ECO, Design Controls, Risk Documentation) • FDA-Regulated Manufacturing
